# About LSMT

## Shaping Global Leaders in Business and Technology Innovation

The London School of Management and Technology (LSMT) is a premier institution dedicated to redefining the landscape of higher education on a global scale. With a strong commitment to excellence, we aim to provide accessible, high-quality education through a network of global campuses and innovative online programs. At LSMT, we believe in nurturing not only academic knowledge but also the practical skills and competencies essential for leadership and success in today's fast-paced industries. Since our inception, we have consistently set new benchmarks in academic rigour, creative thinking, and professional readiness, driving excellence in higher education.

Our mission to make quality education accessible to all is realised through a diverse range of online programs and

our expanding network of international campuses, including key locations in the UK and other strategic global hubs. We offer a broad spectrum of programs, including bachelor's, master's, and doctoral degrees, along with specialised certification courses in various fields. Our multidisciplinary approach transcends traditional academic boundaries, preparing students to become forward-thinking and innovative leaders in their chosen fields.

At LSMT, we foster an environment of academic freedom, encouraging students to explore, innovate, and carve out their own niche in an increasingly complex and dynamic world. Guided by our mission to deliver a transformative learning experience, we aim to develop future leaders equipped with the skills and confidence to excel in their careers.

## About our Institution

The London School of Management and Technology (LSMT), based in the United Kingdom, is a distinguished institution focused on providing world-class education in business, management, and technology. With diverse programs at the bachelor's, master's, and doctoral levels, LSMT offers a blend of flexible learning options, including online, onsite, and hybrid platforms, to accommodate the needs of today's global students. As part of its commitment to quality, we maintain an extensive framework of accreditations and memberships, aligning with European and global standards in higher education.

As a member of the Euro American Education Group, we join a network of renowned institutions, including the European Institute of Management and Technology in Switzerland, France and Birchwood University in the USA. This affiliation enhances the academic and professional standards upheld by us, ensuring that students benefit from international academic exposure and accreditation that meets the highest quality standards.

### **Dual Degree Opportunities with Euro American Institute (EAI), Malta**

All students enrolled at LSMT can also benefit from a unique opportunity to earn a dual degree. Through this pathway, students are concurrently registered in available programs at the Euro American Institute (EAI), Malta, thereby graduating with degrees from both LSMT and EAI. This dual degree advantage amplifies the global recognition and value of their credentials, preparing them for success across various industries and global markets.

### **Euro American Education Group**

The Euro American Education Group was established by a group of prominent educators with a mission to provide meaningful, accredited academic opportunities globally. The group has grown to include presence in the USA, UK, Switzerland, Malta, and France, each dedicated to offering high-quality education at Undergraduate, Postgraduate, and Doctoral levels. Through its institutions, the group promotes academic excellence and innovation, driven by a vision to deliver accessible international education.

## Euro American Accreditation & European Framework

### Malta Further & Higher Education Authority (MFHEA)

The Euro American Institute (EAI), based in Malta, is a recognised higher education institution approved by the Malta Further & Higher Education Authority (MFHEA). With Licence Number 2024-032, EAI offers a suite of European qualifications, including Doctoral programs at Level 8 on both the European Qualifications Framework (EQF) and Maltese Qualifications Framework (MQF). This MFHEA recognition ensures that EAI degrees are valid across the European Union, allowing for seamless credit and degree transfer in compliance with the European Credit Transfer System (ECTS).

### European Higher Education Area (EHEA)

LSMT aligns with the European Higher Education Area (EHEA), an international collaboration spanning 49 countries committed to creating compatible and quality-assured higher education systems. Our commitment to the EHEA principles—such as institutional autonomy, academic freedom, and free movement of students and staff—ensures that its programs are in line with the European standards and guidelines for quality assurance, making our degrees recognised and respected throughout Europe and beyond.

### Bologna Process

LSMT adheres to the Bologna Process, a set of agreements harmonising academic standards across Europe. Through this process, we follow the EHEA's three-cycle system, compatibility with the Lisbon Recognition Convention, and the European Credit Transfer System (ECTS), further bolstering the portability and international recognition of its degrees.

### ENIC-NARIC

Our qualifications are recognised under the ENIC-NARIC framework, which supports academic recognition across 55 participating countries. The ENIC-NARIC network, developed by UNESCO and the Council of Europe, provides a reliable framework for LSMT graduates seeking to further their studies or careers internationally.

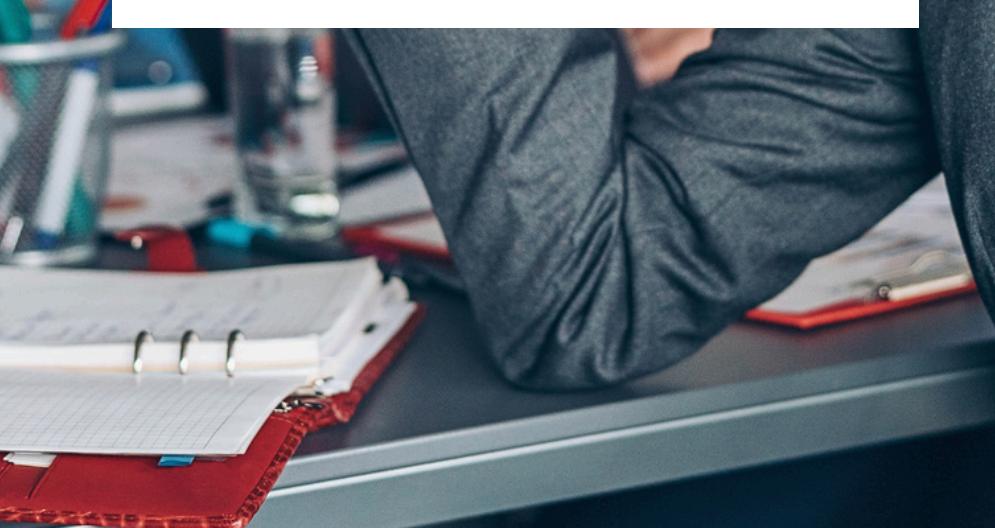

# Program Overview:

Elevate your career with our Doctorate in Business Administration. Develop strategic insights, refine your leadership skills, and drive innovation within your field. Become a recognised expert and lead with confidence. Explore our DBA program today!

**Duration: 3 years**

## Become a Global Business Leader with our Online DBA

The Online Doctorate in Business Administration (DBA) program is designed for senior professionals and executives who wish to advance their careers and gain cutting-edge knowledge in business management.

# Program Objectives:

- **Develop Advanced Management Skills:**

Equip students with the latest management theories and practises, enhancing their ability to make strategic decisions and lead organisations effectively.

- **Enhance Strategic Thinking:** Train students to think critically and strategically, using data-driven insights to solve complex business problems and make impactful decisions.

- **Foster Research Excellence:** Promote the development of strong research skills, enabling students to conduct high-quality research that contributes to business administration and addresses real-world challenges.

- **Promote Leadership and Innovation:**

Cultivate leadership qualities and an innovative mindset, preparing students to lead transformative initiatives and drive change within their organisations.

- **Emphasis on Ethical and Sustainable Business Practises:**

Instill a deep understanding of ethics and sustainability in business, guiding students to make responsible and impactful decisions.

# Program Highlights:

- **Flexible Learning Format :** Designed for working professionals, the online DBA program offers the flexibility to study at your own pace, making it possible to balance your education with career and personal commitments.
- **Advanced Curriculum :** The program covers essential areas such as Advanced Strategic Management, Leadership and Organisational Behaviour, Global Business Environment, and Research Methodology, ensuring a comprehensive understanding of high-level business concepts.
- **Practical Application :** Emphasises the practical application of business theories and strategies, allowing students to apply what they learn directly to real-world business challenges within their own organisations.
- **Expert Faculty :** Learn from experienced faculty members who bring a blend of academic prowess and industry expertise, providing insights that bridge theory and practice.
- **Global Networking :** Engage with a diverse cohort of professionals from various industries and backgrounds, fostering global networking opportunities and peer learning.
- **Research Excellence :** Focus on producing a doctoral dissertation that addresses significant business challenges, contributing new knowledge and insights to the field of business administration.
- **Career Advancement :** Graduates are equipped with the skills needed for high-level positions in academia, consulting, corporate leadership, or entrepreneurship, enhancing their professional trajectory.
- **Ethical and Sustainable Focus :** The program integrates discussions on ethics and sustainability, preparing leaders to make decisions that positively impact society and the environment.

## Program Outcomes:

- Advanced Leadership and Strategic Thinking
- Expertise in Business Research and Analysis
- Enhanced Problem-Solving Capabilities
- Global Business Perspective
- Innovation and Change Management
- Ethical and Sustainable Business Practices
- Professional and Academic Recognition
- Networking and Professional Development
- Contribution to Business Knowledge and Practice
- Adaptability to Emerging Business Trends

# Why Earn an Online DBA?

## Advanced Knowledge and Expertise

Our online DBA establishes you as a globally recognised thought leader, enhancing your credentials for executive, consulting, or academic roles. It showcases your commitment to continuous learning and strategic impact in any organisation.

## Career Advancement and Leadership Opportunities

Our online DBA positions you as a thought leader in your industry. The degree is highly respected and recognised globally, making it a powerful credential for career advancement. Whether you're aiming for executive roles, consulting positions, or academic careers, the online DBA demonstrates your commitment to continuous learning.

## Flexible Learning for Professionals

Our online DBA program offers flexible learning for working professionals, allowing you to study at your own pace and apply new skills directly to your job without disrupting your career or personal life.

## Practical and Research-Oriented Approach

Unlike a traditional PhD, the online DBA at LSMT focuses on practical application and real-world problem-solving. The research component addresses contemporary business issues, making your studies directly relevant and applicable to your professional context.

## Networking and Global Connections

As a DBA student at LSMT, you'll join a global community of professionals, offering networking with peers, faculty, and industry leaders. These connections foster collaboration, career growth, and enhance your ability to thrive in international markets.

## Personal and Professional Fulfilment

Pursuing an online DBA goes beyond career growth; it's a journey of personal development, challenging you to think critically, solve complex problems, and expand your skills. Completing the program is a testament to your dedication and intellectual curiosity.

## **Contribution to the Body of Knowledge**

Earning an online DBA allows you to contribute significantly to business knowledge, with your research influencing industry practices, shaping strategies, and driving innovation, leaving a lasting impact on your field.

## **Enhanced Credibility and Influence**

Our online DBA boosts your credibility as a business expert, leading to greater influence and opportunities within your organisation or industry. It opens doors to higher roles, consulting, speaking engagements, and publishing, solidifying your position as a leader.

## **Access to Resources and Support**

We offer strong support for DBA students, including access to experienced faculty, extensive learning materials, and research tools. The school's commitment to student success provides the guidance needed to overcome program challenges and achieve your goals.

## **Competitive Edge in the Job Market**

In a competitive job market, an online DBA sets you apart by showcasing advanced skills and knowledge valued by employers. It positions you as a strong candidate for high-level roles, ready to tackle complex challenges and lead through change.

# Who is This Program For?

## Senior Executives and Managers

to enhance leadership and strategic decision-making skills.

## Aspiring Consultants

to transition into consulting with advanced business insights.
